OBJECTIVE

Worked individually as well as a team player in various projects. Have been a part of support team. Ability and interest in learning and incorporating new technologies. Good learner and self-motivated, love to work with passion and enthusiasm.

WORK EXPERIENCE

Feb 04, 2024 - Present

Turing (Remote Projects)

Built and maintained scalable Django applications, REST APIs, and backend systems with database and deployment management.

Contributed to AI model evaluation, prompt analysis, and improving response quality and accuracy.

Jan 25, 2023 - Jan 18, 2024

Freelance | Self-Employed | Remote

Developed Python and Django-based backend systems and APIs for international clients, ensuring scalable and high-performance applications.

Improved performance, managed databases, and supported testing, debugging, and deployment processes.

Jan 15, 2022 - Dec 20, 2023

Petsaal Technologies Lahore | Onsite

Developed secure Laravel and PHP applications, including REST APIs, authentication systems, and admin dashboards.

Mar 24, 2021 - Dec 24, 2022

Self Employed | Remote

Led the development of scalable Python and Django applications, handling full-stack development, API integration, performance optimization, testing, and deployment.

EDUCATIONAL BACKGROUND

March 15, 2024

Bachelor of Computer Science (BSCS)

Major Subject: OPP, Web, programming fundamentals Data Structures, Algorithms.

Lahore Garrison University, Punjab, (Pakistan)

CERTIFICATIONS

July 03, 2017 - Aug 25, 2017

Graphic Designer Course

Peak Solution Technical Training Centre, Lahore

Computer Software Course

July 03, 2017 - Aug 25, 2017

Peak Solution Technical Training Centre, Lahore

Good command of Microsoft Office (MS Word, MS Excel, Power Point), Professional level working knowledge of Internet. [Good command on Zoom/ Instagram / Twitter / LinkedIn / Skype / Internet user](#)

Awarded **Best Performance Award** by [Turing \(Remote Projects\)](#) (May 15, 2024; November 3, 2025).

ACHIEVEMENTS

PROJECTS

Feb 19, 2024 | Completed

E-learning Platform

Deliver a cross-platform system that flags each degree as government or private, lets users download lectures for offline viewing, records course, institute, and duration at signup, gives view-only access to students and teachers (note/document sharing enabled for teachers), and grants full control to the super admin.

Oct 19, 2023 | Completed

CRM, Personal Blogs

A minimal Django CRM demo: authenticated users manage contact Record entries via a Bootstrap-styled interface backed by SQLite & MySQL. Out-of-the-box, it offers registration/login, flash messages, and full CRUD through tidy views, forms, and templates.

June 16, 2023 | Completed

E-Commerce

Developed a responsive e-commerce web app (Python/Django + MySQL, Bootstrap/Tailwind/Material UI) featuring product catalog with search/filter, full shopping-cart workflow, and RESTful APIs for products, cart, and orders.

Jan 03, 2026 | Completed

Amazon Evals

Evaluated multiple AI models on coding prompts, scoring accuracy, instruction following, efficiency, and helpfulness. Executed code, captured outputs, and documented issues with concise evidence. Ensured adherence to prompt rules, identified logical errors, and maintained organized evaluation records.

SKILLS

Programming Languages: Python ^(Advanced), JavaScript ^(Medium), PHP ^(Medium), Java ^(Basic), C, C++ ^(Advanced)

Frameworks & Libraries:

Backend: Django (REST APIs, DRF, Auth2), Flask

Frontend: React, Tailwind.CSS, HTML5, Bootstrap 5, Django forms & Templates, jQuery

DBMS & ORM Tools: PostgreSQL, MySQL, SQLite, Model Manager

DevOps: Docker

Other Skills: Mobile Responsive Web Design, Jira

Version Control: GitHub, Git, GitLab
